

Como fazer upload das trilhas GPS (em formato gpx) para o 3drerun

- 1- Ir a <http://3drerun.worldofo.com/index.php>
- 2- Clicar em add GPS routes

- 3- Escolher ficheiro, colocar nome e nome treino competição

- 4- Selecionar o ficheiro da lista que contém o mapa base ao qual irá ficar associado a trilha GPS. No exemplo estou a associar a trilha do Tiago Leal ao mapa base do Tiago Aires (TA). Notem que para ter o mapa associado o nome do ficheiro não pode conter (GPX import).
